

ICRR young researchers' workshop

Wednesday 15 July 2026

Session 5: Obs. Cosmology - Large Seminar Room 601 (Kashiwa) (16:20-17:20)

-Conveners: Masayuki Harada

time	[id] title	presenter
16:20	[29] Cosmic Reionization and Cosmological Parameters	KAGEURA, Yuta
16:35	[30] A Scaling Relation of “Little Red Dots” between H α and Bolometric Luminosities: Enhanced H α Emission Relative to Low-z Type 1 AGNs	YANAGISAWA, Hiroto
16:50	[31] Early Chemical Enrichment in UV-Bright Galaxies at the Epoch of Reionization Probed by JWST Absorption-Line Analysis	NAKANE, Minami
17:05	[32] Statistical Rethinking: overmassive blackhole at high-z universe	ZHU, Chenghao
