

GWADW2022 - Approaching the low-frequency design sensitivity of ground-based detectors

Monday 23 May 2022

Plenary: Plenary (13:30-15:30)

-Conveners: Kentaro Somiya

time	[id] title	presenter
13:30	[3] Introduction of the meeting	SOMIYA, Kentaro
13:35	[5] Observing black holes throughout the Universe	Prof. MONICA, Colpi
14:15	[6] Multi-messenger observations of gravitational-wave transients	CORSI, Alessandra
14:35	[28] Approaches to low frequency noise in LIGO	MCCULLER, Lee
14:55	[59] AdV+ low frequency noises challenges and plans	WAS, Michal
