

# Constraint on Nature of Annihilation Dark Matter with Low Surface Brightness Galaxies

## Indirect Research for Dark Matter Particles (WIMPs)

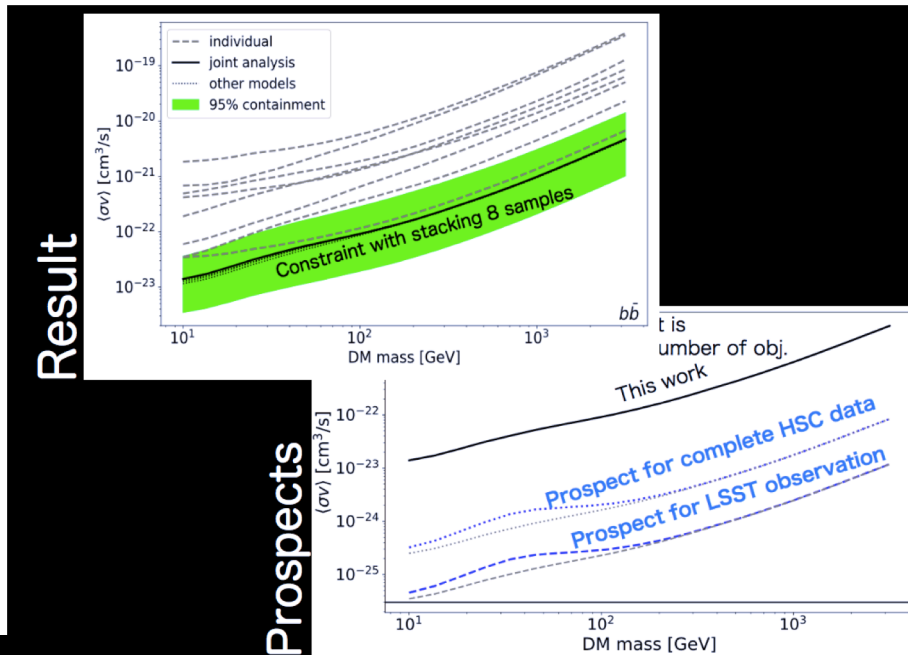

WHY are LSBGs considered as novel targets for DM annihilation?

HOW strong ...

the constraint can be in the future?

In the poster session,

**Let's talk about the details!**

D. Hashimoto (Nagoya U.), O. Macias (IPMU & Amsterdam), A. J. Nishizawa (Nagoya U.), K. Hayashi (ICRR), M. Takada (IPMU), M. Shirasaki (NAOJ) and S. Ando (Amsterdam & IPMU)
